REMARKS

Reconsideration is requested.

The specification has been amended to include the attached Sequence Listing.

The attached paper and computer readable copies of the Sequence Listing are the same. No new matter has been added.

A copy of the Notification of Defective Response dated January 9, 2007 is attached. A copy of the "CRF Problem Report" attached to the Notification of Defective Response dated January 9, 2007 is attached.

The undersigned notes that the CRF copy of the Sequence Listing submitted on September 19, 2006 in response to the Notification of August 24, 2006 is, with respect to the "invention title, docket number, or applicant(s)", the same as the originally-filed Sequence Listing. The CRF filed September 19, 2006 therefore is not believed to be the "Wrong file saved to CRF" as indicated by the Patent Office in the "CRF Problem Report" received with the Notification of Defective Response dated January 9, 2007, and which was apparently the basis of the Notification. The attached Sequence Listing includes a revision of the objected-to information.

A review of the PTO IFW reveals a Notification of Defective Response dated November 17, 2006 (document no. 0C000000021266049) and RAW SEQUENCE LISTING ERROR REPORT from processing by STIC on September 22, 2006. A copy of these papers is attached. The undersigned has not received these papers prior to February 6, 2007 when they were obtained by the undersigned from a review of the PTO IFW.

Attached is a copy of the undersigned's docket sheet from December 17, 2006, where a one month action allegedly mailed November 17, 2006, would have been docketed, as evidence of non-receipt of the Notification of Defective Response dated November 17, 2006 (document no. 0C000000021266049) and RAW SEQUENCE LISTING ERROR REPORT from processing by STIC on September 22, 2006.

The undersigned affirms and attests that a search of the file jacket and docket records indicates that the Notification of Defective Response dated November 17, 2006 (document no. 0C000000021266049) and RAW SEQUENCE LISTING ERROR REPORT from processing by STIC on September 22, 2006 were not received prior to the February 6, 2007 discovery of same by the undersigned in reviewing the PTO IFW.

The attached Sequence Listing includes revision believed to be corrective of the errors indicated in the RAW SEQUENCE LISTING ERROR REPORT from processing by STIC on September 22, 2006.

The present Amendment and attached are believed to be completely responsive to the Notification of Defective Response dated January 9, 2007. The Office is requested to contact the undersigned in the event anything further is required in this regard.

Applicant's response filed 09/19/2006 is hereby acknowledged. The following requirements set forth in the NOTIFICATION of MISSING REQUIREMENTS mailed 08/24/2006 have not been completed.

A copy of the "Sequence Listing" in computer readable form has been submitted. However, the content of
the computer readable form does not comply with the requirements of 37 CFR 1.822 and/or 1.823, as
indicated on the attached copy of the marked -up "Raw Sequence Listing." Applicant must provide a
substitute computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content
of the sequence listing information recorded in computer readable form is identical to the written (on paper
or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR
1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d).

• The computer readable form that has been filed with this application has been found to be damaged and/or unreadable as indicated on the attached CRF Diskette Problem Report. A substitute computer readable form must be submitted as required by 37 CFR 1.825(d). Applicant must provide a substitute computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

Applicant is required to complete the response within a time limit of ONE MONTH from the date of this Notification or within the time remaining in the response set forth in the Notification of Missing Requirements, whichever is the longer. No extension of this time limit may be granted under 37 CFR 1.136, but the period for response set in the Notification of Missing Requirements may be extended under 37 CFR 1.136(a).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

For questions regarding compliance to 37 CFR 1.821-1.825 requirements, please contact:

- For Rules Interpretation, call (571) 272-0951
- For Patentin Software Program Help, call Patent EBC at 1-866-217-9197 or directly at 703-305-3028 / 703-308-6845 between the hours of 6 a.m. and 12 midnight, Monday through Friday, EST.
- Send e-mail correspondence for Patentin Software Program Help @ ebc@uspto.gov

Applicant is reminded that any communications to the United States Patent and Trademark Office must be mailed to the address given in the heading and include the U.S. application no. shown above (37 CFR 1.5)

Applicant's response filed 09/19/2006 is hereby acknowledged. The following requirements set forth in the NOTIFICATION of MISSING REQUIREMENTS mailed 08/24/2006 have not been completed.

• The paper or compact disc copy of the "Sequence Listing" is not the same as the computer readable form of the "Sequence Listing" as required by 37 CFR 1.821(e). Applicant must provide a substitute paper or compact disc copy of the "Sequence Listing", as well as an amendment specifically directing its entry into the application OR a substitute computer readable form (CRF) copy of the "Sequence Listing". These two items must be the same. Applicant must also provide a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR

- 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000).
- The computer readable form that has been filed with this application has been found to be damaged and/or unreadable as indicated on the attached CRF Diskette Problem Report. A substitute computer readable form must be submitted as required by 37 CFR 1.825(d). Applicant must provide a substitute computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

Applicant is required to complete the response within a time limit of ONE MONTH from the date of this Notification or within the time remaining in the response set forth in the Notification of Missing Requirements, whichever is the longer. No extension of this time limit may be granted under 37 CFR 1.136, but the period for response set in the Notification of Missing Requirements may be extended under 37 CFR 1.136(a).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.

For questions regarding compliance to 37 CFR 1.821-1.825 requirements, please contact:

- For Rules Interpretation, call (571) 272-0951
